1. Identification

Material name: CG-7001W
Issue date: 12-March-2015
Revision date: -
Supersedes date: -
Other means of identification:
  Spec ID: 110000001831
  Synonyms: None.
Recommended use: Color resist.
Recommended restrictions: None known.
Supplier information:
FUJIFILM Electronic Materials U.S.A., Inc.
80 Circuit Drive
North Kingstown RI 02852
Transportation Emergency:
FOR ALL TRANSPORTATION ACCIDENTS, CALL CHEMTREC: 1-800-424-9300
Medical Emergency (24HR):
FOR ANY HEALTH & MEDICAL EMERGENCY, 24 HOURS /7 DAYS CALL:
1-800-365-8951
Non-emergency Telephone:
FOR ALL SDS REQUESTS & QUESTIONS, CALL CUSTOMER SERVICE:
1-800-553-6546
SDS file: 50056_US_EN_V1.0
Replaces file: None

2. Hazard(s) identification

Category 3 Flammable liquids
Physical hazards
Category 2 Skin corrosion/irritation
Health hazards
Category 1 Serious eye damage/eye irritation
Specific target organ toxicity, single exposure Category 3 narcotic effects
OSHA defined hazards
Not classified.

Label elements

Signal word: Danger
Hazard statement: Flammable liquid and vapor. Causes skin irritation. Causes serious eye damage. May cause drowsiness or dizziness.
Precautionary statement

Prevention
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash thoroughly after handling.

Response
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. In case of fire: Use foam, carbon dioxide, dry powder or water fog for extinction.

Storage
Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store locked up.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)  
None known.

3. Composition/information on ingredients

<table>
<thead>

Composition comments: All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. The product contains: Acrylic resin derivative. Yellow Pigment (Heterocyclic derivative).

4. First-aid measures

**Inhalation**  
Move injured person into fresh air and keep person calm under observation. Get medical attention if any discomfort continues.

**Skin contact**  
Remove contaminated clothes and rinse skin thoroughly with water for at least 15 minutes. Get medical attention promptly if symptoms persist or occur after washing.

**Eye contact**  
Immediately flush eyes with plenty of water for at least 15 minutes. Remove any contact lenses and open eyelids wide apart. Get medical attention immediately. Continue to rinse.

**Ingestion**  
Rinse mouth thoroughly with water and give large amounts of milk or water, if person is conscious. Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs. Lay on the side. Get medical attention immediately.

**Most important symptoms/effects, acute and delayed**  
Inhalation: Vapors may cause drowsiness and dizziness. Eye contact: Can cause corneal opacity. Skin contact: Defats the skin. Ingestion: Be aware that symptoms of chemical pneumonia (shortness of breath) may occur several hours after exposure.

**Indication of immediate medical attention and special treatment needed**  
Treat symptomatically.

**General information**  
Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital.

5. Fire-fighting measures

**Suitable extinguishing media**  
The product is flammable, and heating may generate vapors which may form explosive vapor/air mixtures. Extinguish with foam, carbon dioxide, dry powder or water fog.

**Unsuitable extinguishing media**  
None.

**Specific hazards arising from the chemical**  
During fire, gases hazardous to health may be formed. Solvent vapors may form explosive mixtures with air.

**Special protective equipment and precautions for firefighters**  
Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**  
Use standard firefighting procedures and consider the hazards of other involved materials. Containers close to fire should be removed or cooled with water.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**  
Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate the area. Avoid inhalation of vapors/spray and contact with skin and eyes. Wear suitable protective clothing. See Section 8 of the SDS for Personal Protective Equipment.

**Methods and materials for containment and cleaning up**  
Remove sources of ignition. Absorb spillage with non-combustible, absorbent material. For waste disposal, see Section 13 of the SDS.

**Environmental precautions**  
Avoid discharge into drains, water courses or onto the ground unless authorized by permit.
7. Handling and storage

Precautions for safe handling

Local exhaust is recommended. Avoid inhalation of vapors and spray mist and contact with skin and eyes. Wear approved safety goggles. Wear protective gloves and appropriate clothing to prevent skin contact. The product is flammable, and heating may generate vapors which may form explosive vapor/air mixtures. Do not smoke and do not spray near an open flame or other sources of ignition. Vapors are heavier than air and may travel along the floor and in the bottom of containers. Vapors may be ignited by a spark, a hot surface or an ember. Take precautionary measures against static discharges. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Follow rules for flammable liquids. Keep away from heat, sparks and open flame. Do not store near heat sources or expose to high temperatures. Store in closed original container in a dry place. Store away from incompatible materials.

8. Exposure controls/personal protection

Exposure guidelines

US - California OELs: Skin designation

US - Minnesota Haz Subs: Skin designation applies

Cyclohexanone (CAS 108-94-1) Skin designation applies.

US - Tennessee OELs: Skin designation

Cyclohexanone (CAS 108-94-1) Can be absorbed through the skin.

US ACGIH Threshold Limit Values: Skin designation

Cyclohexanone (CAS 108-94-1) Can be absorbed through the skin.

US. NIOSH: Pocket Guide to Chemical Hazards

Cyclohexanone (CAS 108-94-1) Can be absorbed through the skin.

Appropriate engineering controls

Use explosion-proof equipment. Provide adequate ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors. Provide easy access to water supply or an emergency shower.
Individual protection measures, such as personal protective equipment

<table>
<thead>
<tr>
<th>Protection</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Eye/face protection</strong></td>
<td>Wear approved safety goggles.</td>
</tr>
<tr>
<td><strong>Skin protection</strong></td>
<td>Wear protective gloves impervious to the chemicals in use.</td>
</tr>
<tr>
<td><strong>Hand protection</strong></td>
<td>Also wear appropriate clothing to prevent any possibility of skin contact. Suitable items can be recommended by the protective equipment supplier or by a qualified industrial hygienist.</td>
</tr>
<tr>
<td><strong>Respiratory protection</strong></td>
<td>If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA Standard 1910.134. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.</td>
</tr>
<tr>
<td><strong>Thermal hazards</strong></td>
<td>Wear appropriate thermal protective clothing, when necessary.</td>
</tr>
<tr>
<td><strong>General hygiene considerations</strong></td>
<td>Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.</td>
</tr>
</tbody>
</table>

9. Physical and chemical properties

**Appearance**
- Physical state: Liquid.
- Form: Liquid.
- Color: Green.
- Odor: Ester.
- Odor threshold: No data available.
- pH: Not applicable.
- Melting point/freezing point: No data available.
- Initial boiling point and boiling range: > 212 °F (> 100 °C)
- Flash point: 116.6 °F (47.0 °C)
- Evaporation rate: No data available.
- Flammability (solid, gas): Not applicable.

**Upper/lower flammability or explosive limits**
- Flammability limit - lower (%): No data available.
- Flammability limit - upper (%): No data available.
- Vapor pressure: No data available.
- Vapor density: > 1 (Air = 1)
- Relative density: 1 (Approximate)
- Solubility(ies):
  - Solubility (water): Slightly soluble in water.
- Partition coefficient (n-octanol/water): No data available.
- Auto-ignition temperature: No data available.
- Decomposition temperature: No data available.
- Viscosity: 10 - 14 mPa·s
- Other information:
  - Density: 1 (Approximate)
  - Molecular weight: Not applicable/mixture.

10. Stability and reactivity

**Chemical stability** Stable under normal temperature conditions.

**Possibility of hazardous reactions** Will not occur.

**Conditions to avoid** Heat, sparks, flames.
Incompatible materials

Hazardous decomposition products

11. Toxicological information

Information on likely routes of exposure

Inhalation
Vapors may irritate throat and respiratory system and cause coughing.

Skin contact
Causes skin irritation. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. The product contains components which may penetrate skin.

Eye contact
Causes serious eye damage.

Ingestion
Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation: Vapors may cause drowsiness and dizziness. Eye contact: Can cause corneal opacity. Skin contact: Defats the skin. Ingestion: Be aware that symptoms of chemical pneumonia (shortness of breath) may occur several hours after exposure.

Information on toxicological effects

</tbody>
</table>

Skin corrosion/irritation
Causes skin irritation.

Serious eye damage/eye irritation
Causes serious eye damage.

Respiratory or skin sensitization

Respiratory sensitization
No data available.

Skin sensitization
Not a skin sensitizer.

Germ cell mutagenicity
No data available.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

IARC Monographs. Overall Evaluation of Carcinogenicity

Cyclohexanone (CAS 108-94-1) 3 Not classifiable as to carcinogenicity to humans.
OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

IARC: 1 = Carcinogenic to Humans; There is sufficient evidence of carcinogenicity in humans. 2A = Probably Carcinogenic to Humans; There is limited evidence of carcinogenicity in humans and sufficient evidence of carcinogenicity in experimental animals. 2B = Possibly Carcinogenic to Humans; There is limited evidence of carcinogenicity in humans and less than sufficient evidence of carcinogenicity in experimental animals. 3 = Not classifiable as to carcinogenicity to humans; The evidence of carcinogenicity is inadequate in humans and inadequate or limited in experimental animals. 4 = Probably not carcinogenic to humans; There is inadequate evidence of carcinogenicity in humans but evidence suggesting lack of carcinogenicity in experimental animals. Not listed = Not evaluated by IARC.

Reproductive toxicity
No data available.

Specific target organ toxicity - single exposure
May cause drowsiness or dizziness.

Specific target organ toxicity - repeated exposure
No data available.
Aspiration hazard  
Swallowing or vomiting of the liquid may result in aspiration into the lungs.

Chronic effects  
Prolonged skin contact may cause dermatitis. May cause damage to the liver and kidneys. Organic solvents may be absorbed into the body by inhalation and cause permanent damage to the nervous system, including the brain.

12. Ecological information

Ecotoxicity  
The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability  
No data available.

Bioaccumulative potential  
No data available.

Mobility in soil  
No data available.

Mobility in general  
The product is slightly soluble in water. The product contains organic solvents which will evaporate easily from all surfaces.

Other adverse effects  
The product contains volatile organic compounds which have a photochemical ozone creation potential.

13. Disposal considerations

Disposal instructions  
Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

Hazardous waste code  
D001: Waste Flammable material with a flash point <140 °F

Waste from residues / unused products  
Dispose of in accordance with local regulations.

Contaminated packaging  
Empty containers should be taken to an approved waste handling site for recycling or disposal.
